PROFESSIONAL SUMMARY

Java Full Stack Developer and 2024 Computer Science Engineering graduate with hands-on experience in Java, Spring Boot, Angular, Hibernate, JDBC, MySQL, and RESTful APIs. Experienced in developing full-stack web applications, implementing backend services, integrating databases, building Angular-based user interfaces, and with experience using Git/GitHub and AWS EC2. Strong foundation in Object-Oriented Programming, relational databases, and software development practices, with internship and technical experience across Java Full Stack, Angular, and automation projects.

TECHNICAL SKILLS

Languages:	Java, JavaScript, TypeScript
Backend:	Spring Boot, Spring Data JPA, Spring Security, Maven, Dependency Injection, JDBC, RESTful APIs
Frontend Web:	Angular 16+, HTML5, CSS3, Bootstrap 5
Database:	MySQL, MS-SQL Server, CRUD Operations
Cloud:	AWS EC2
Testing:	Postman API Testing
Tools:	Git, GitHub, IntelliJ IDEA, Eclipse, Spring Tool Suite (STS), VS Code
Development Practice:	Object-Oriented Programming (OOP), Agile Workflows, CI/CD
Soft Skills:	Problem Solving, Communication, Team Collaboration

PROFESSIONAL EXPERIENCE

Java Full Stack Developer Intern	06/2025 – 12/2025
<i>Uniq Technologies</i>	<i>Chennai, India</i>

- Developed Spring Boot backend services and RESTful APIs for business operations and database integration, following layered application architecture.
- Implemented Hibernate and JDBC data-access layers and optimized SQL queries to improve database performance and response time.
- Built responsive frontend features using HTML5, CSS3, and JavaScript with client-side input validation and API integration.

Angular Frontend Developer Intern	07/2023 – 09/2023
<i>Glacier Technology</i>	<i>Coimbatore, India</i>

- Built single-page web applications using Angular 16+ and TypeScript with reusable components and responsive layouts.
- Integrated RESTful APIs into Angular application to retrieve and manage application data.
- Created reusable UI components using Bootstrap 5 to build consistent and responsive interfaces.

PROJECTS

Hospital Management System (Full-Stack)

Technologies: Java, Spring Boot, Hibernate ORM, Angular 16+, MySQL, REST APIs

- Built a full-stack Hospital Management System using Java, Spring Boot, Hibernate, Angular 16+, and MySQL with role-based JWT authentication for administrators, doctors, and patients.
- Designed database functionality for patient scheduling, billing history, and electronic health record management.

E-Commerce Web Application

Technologies: Angular 17+, HTML5, CSS3, Bootstrap 5, TypeScript

- Built a responsive e-commerce web application using Angular 17+, HTML5, CSS3, TypeScript, and Bootstrap 5, featuring product catalog and shopping cart interfaces.
- Implemented interactive frontend functionality using TypeScript for product interactions, cart operations, and client-side user interface behavior.

Bio-Key for User Authentication and Data Protection System

Technologies: HTML5, CSS3, Bootstrap 3, PHP, Python, MySQL 5

- Developed a web-based user authentication and data protection system using PHP, Python, MySQL, HTML5, CSS3, and Bootstrap 3.
- Implemented user authentication functionality and managed user data using PHP and MySQL.
- Designed responsive user interfaces using HTML5, CSS3, and Bootstrap 3 for improved usability across different screen sizes.
- Integrated Python-based functionality with the application to support authentication and data protection requirements.

EDUCATION

B.E. in Computer Science and Engineering (2020 – 2024 Batch)

Graduated: 2024

Adithya Institute of Technology (Affiliated to Anna University)

Coimbatore, India

- Academic Performance: CGPA: 8.03
- Successfully completed full curriculum with core expertise in Data Structures, OOPs, DBMS, and Software Engineering.

CERTIFICATIONS

Full Stack Development Certification – Infosys Springboard	11/2022
Full Stack with Python Programming Certification – GUVI Geek Network	09/2023
Routing & Switching Networking Certification – Cisco	06/2023
